Dear Culinarian's,

I'm writing a letter of endorsement on Sika Chef Clog footwear. I have been a loyal supported of these clogs for four years. I was introduced to these clogs by my colleague Chef Norm Myshok.

I utilize the Flex Calf leather insole clog. I find they give me the support and the flexibility with my demanding work schedule. I travel across Canada and the Us. When traveling my clogs double up as a work shoe and a dress shoe.

I recommended this clog for your day to day work or even around the house. They work great for doing those Honeys to list.

Cordially,

Tim Belanger
